Skills

- HTML
- CSS
- JavaScript
- TypeScript
- Bootstrap
- TailwindCSS
- Vue
- Nuxt JS
- Vite JS
- Liferay
- Freemarker
- Git

Software

- Photoshop
- VSCode
- Github
- Notion
- Office suite

About me

I'm a web developer with more than 5 years of experience and the ability to adapt in both self-starting and collaborative environments, while staying focused on achieving high quality results under strict deadlines.
I'm a fast learner and I'm eager to study new technologies and languages to further improve my skills and knowledge.

Education

2013/2017 **Diploma - Computer Technician**
 ITT Michelangelo Buonarroti – Pozzo, Trento (Italy)

Experience

09.2017 – 12/2017
Stage
Starworks Warehouse | Wolverhampton UK

Website development made with Bootstrap and PHP, with an admin panel for content management

04.2018 – NOW
Web Developer
Suggesto | suggesto.it

Building tourism portals for the provinces of Italy with Liferay and Vue.
All the projects are available under the works section in my portfolio.

Projects

I like to learn new technologies and create some personal projects in my free time, mainly to expand my abilities and knowledge.
I taught myself Vue, Nuxt, Vite and atomic CSS frameworks, I know how to setup a full project that uses Firebase/Strapi/Supabase featuring a store, authentication and host it with continuous deployment.
Recently I started to dive into some different languages, such as Python and Rust.
All my personal projects are open source and available in my GitHub profile.
